Reelcraft: Better by Design

Reelcraft's reels are better by design because of our lasting commitment to excellence. Our engineering team is well known for designing durable, high quality products. Our standard features include durable, corrosion-resistant

powder coat paint, multi-position guide arms for versatile mounting options and heavy-duty, reinforced steel stampings for increased strength. Our reels are permanently factory-lubricated for a long, trouble-free

service life. All of these features, and many more, add up to make "The Reelcraft Difference."

Reinforced Steel
The steel-stamped guide arm is reinforced to reduce bending due to angular pull.

Long Life Drive Spring
Declutching arbor virtually eliminates possibility of spring damage due to reverse winding of reel spool.

Enclosed Drive Spring
Drive mechanism is enclosed for protection against the environment.

Robust Latch
Wide profile combined with special spring assures maximum service life.

Structural Strength
Welded heavy gauge steel frame includes dramatically flanged edges and stiffening ribs for lighter weight, yet stronger components for ease of handling and installation.

Easy to Mount
Attaches to most structurally sound surfaces. Edges are curved for safety.

Improved Connection
The elongated brass connector and proprietary adhesion process provide a better crimp to the hose.

Stress-free Swivel
Our full-flow design combines the highest grade seal design with supporting bearing surfaces to insure the longest possible life.

Corrosion-Resistant
Steel components are individually powder coated to virtually eliminate corrosion.

Long Service Life
Field-proven swivel assures long service life.

Finish with Quality
Our components undergo a special five-stage cleaning process and are individually powder-coated for the highest quality paint adhesion. Excess powder is reclaimed to be environmentally friendly.

Kinkless Hose
High quality PVC hose is specially blended for use on reels

Sealed Connection Points
Swivel and hose inlet connections seal against leaks

Adjustable Guide Arm
Multiple guide arm positions provide versatile uses and easier field adjustment

Trouble-Free Performance
Fewer components increase the service life of the reel and improve performance
